## PORCELAIN WORKTOPS

Extremely hard wearing, porcelain worktops are the latest in kitchen design, with a variety of finishes available & so many benefits you can see why they have become so sought after

Coliseum Statuario Venato

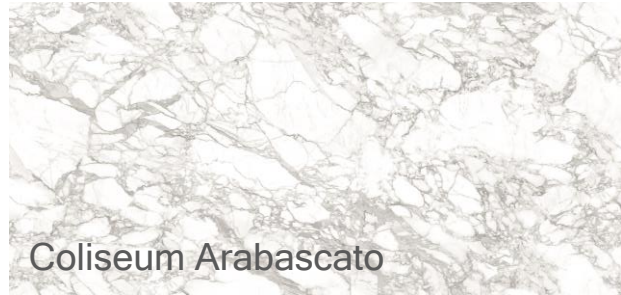

Coliseum Michelangelo

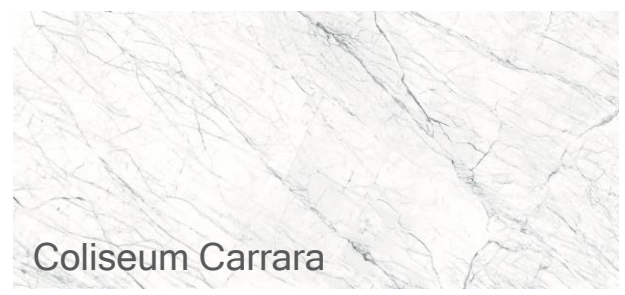

Coliseum Pietra Grey

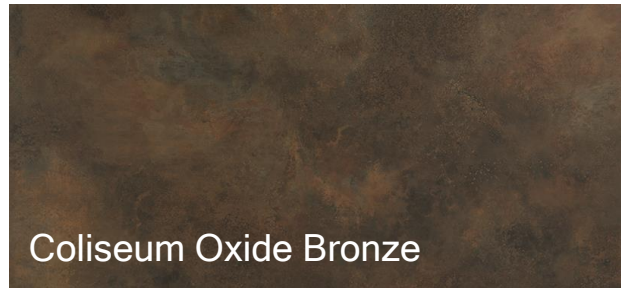

Coliseum Napoleon Black

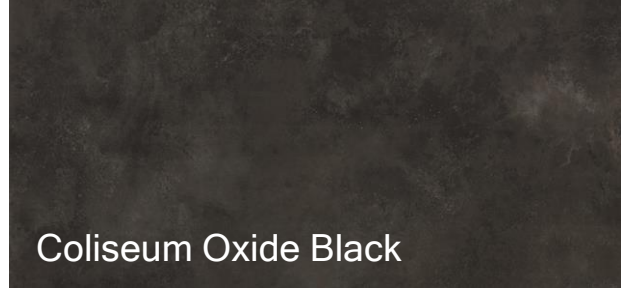

Coliseum Arabascato

Coliseum Carrara

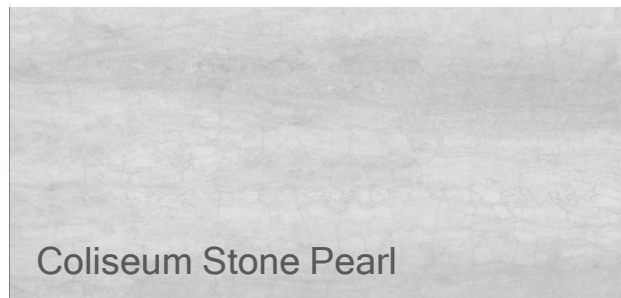

Coliseum Oxide Bronze

Coliseum Oxide Black

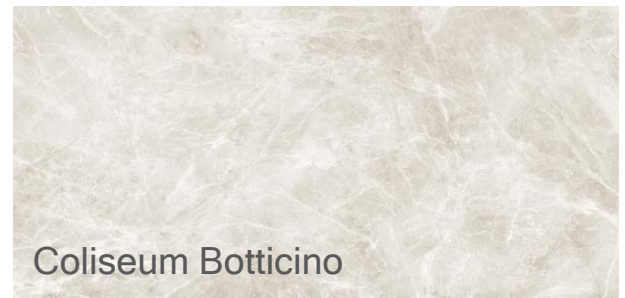

Coliseum Oxide Verderame

Coliseum Stone Pearl

Coliseum Travertine Grigio Vein

Coliseum Botticino

SACW is proud to offer 12 and 20mm porcelain slabs, available in 1.62x3.24m

These have been specifically designed for use as kitchen worktops, bathroom vanity tops, bath surrounds & table tops to name a few

Many of our porcelain slabs are available in 3mm thick for cladding kitchen units & other furniture

To the left are just some of the finishes we offer

Why choose a porcelain worktop over other materials, such as Quartz, Granite, Conglomerate, Corian etc

Porcelain is more resistant to:  
STAINS, SCRATCHES, ABRASIONS,  
CHEMICALS, ACIDS & ALKALIS, MOULD & FUNGI

It is EASY TO CLEAN, HYGIENIC & FOOD SAFE

It can withstand HIGH TEMPERATURES; you can place trays straight from the oven on to your work surface

Furthermore, it is RESISTANT TO UV RAYS making it SUITABLE FOR INDOOR & OUTDOOR USE
